

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, JULY 15, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was heavy in the Southern California Area, moderate in the Eastern Great Basin, Rocky Mountain and Western Great Basin Areas, and light elsewhere. Nationally, 218 fires were reported. Four new large fires were reported, one each in the Western Great Basin, Eastern Great Basin, Northern Rockies and Rocky Mountain Areas. Three large fires were contained, one each in the Southern California, Rocky Mountain and Western Great Basin Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Florida, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah and Washington.

ALASKA AREA LARGE FIRES:

CENTRAL COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (Chrisman) is assigned. This complex, comprised of the Middle Birch Creek, Birch Creek, Rock Creek, Crazy and Tokoma Bluffs fires, is one mile south of Central, AK in timber. Extreme fire behavior spread the fire into drainages above the towns of Circle and Central.

BOUNDARY, Fairbanks Area Forestry, Alaska Division of Forestry. A Type 1 Incident Management Team (Hart) is assigned. This fire is 20 miles northeast of Fairbanks, AK in alpine tundra and black spruce. Terrain driven crown fire spotted across a dozer line. Concern is for residences and subdivisions in Fairbanks Creek and Little Chena River.

EAGLE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Fire Use Management Team (Cones) is assigned. This complex, consisting of the American Summit, Edwards Creek, King Creek, Kandik River, Indian Grave Creek, Deer Creek and seven additional fires, is located three miles northeast of Eagle, AK in tundra, black spruce and mixed hardwoods. Fire activity moderated due to higher relative humidity levels, lower temperatures, and a deep inversion.

TAYLOR COMPLEX, Tok Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This complex, comprised of the Wall Street, Billy Creek, Gardiner Creek, Big Creek, Anomaly, Chicken and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. An inversion resulted in a reduction in fire behavior.

EVANSVILLE, Tanana Zone, Bureau of Land Management. This fire is one half mile southeast of Bettles, AK in black spruce. Extreme fire behavior was reported with crowning and spotting. Fire control is difficult due to deep duff layers.

SOLSTICE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Fire Use Management Team (Bird) is assigned. This incident is 57 miles northwest of Fort Yukon, AK in black spruce and tundra. The complex consists of the Pingo, Winter Trail, Sucker River, Black Currant River, Vundik Lake, Boulder Creek and Sheenjok fires. Heavy smoke impaired control operations and hampered intelligence gathering efforts. A spot fire across the Christian River flared up with brief crown runs and short range spotting.

YUKON CROSSING COMPLEX, Upper Yukon Zone, Bureau of Land Management. This complex includes the previously reported Waldron Creek and Fort Hamlin Hills fires. This complex is ten miles southwest of Stevens Village, AK in black spruce and tundra. Running, crowning, torching and backing fire behaviors were observed.

LOWER MOUTH, Upper Yukon Zone, Bureau of Land Management. This fire is located 12 miles northwest of the village of Birch Creek, AK in white spruce, black spruce, birch and aspen. High winds and low relative humidity are pushing the fire towards the village of Birch Creek.

WOLF CREEK, Upper Yukon Zone, Bureau of Land Management. This fire is 60 miles northeast of Fairbanks, AK in black spruce and hardwoods. The fire is well established in the Monument Creek drainage. Uphill fire runs and spotting were observed.

CAMP CREEK, Delta Area Forestry, Alaska Division of Forestry. This fire is 23 miles northwest of Delta Junction, AK in tundra and spruce. Significant runs contributed to large acreage gains.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

VERBENIA, Riverside Unit, California Department of Forestry and Fire Protection (CDF). A Type 2 Incident Management Team (McCormick) is assigned. This fire is 10 miles northwest of Palm Springs, CA in grass and chaparral. Low fuel moisture and steep terrain are hampering containment efforts; moderate runs were observed.

PINE, Los Angeles County Fire Department. A unified command will be established between a Type 1 Incident Management Team (Gelobter) and the Los Angeles County Fire Department (Hokanson) at 0600 PDT. This fire is 14 miles southeast of Lebec, CA in heavy brush. Mandatory evacuations are in effect for the Lake Hughes area. Lower temperatures and decreased winds moderated fire activity.

MATAGUAY, Monte Vista Unit, California Department of Forestry and Fire Protection. This fire is 14 miles southwest of Ranchita, CA in chaparral and grass. Rapid rates of spread, spotting and large fire whirls were reported. The Mataguay Boy Scout Camp was evacuated; evacuations remain in effect for Ranchita.

LAKEVIEW, Riverside Unit, California Department of Forestry and Fire Protection. This fire is two miles southeast of Sedco Hills, CA in brush and grass. No new information was received.

MEADOW, Yosemite National Park. A Fire Use Management Team (Cook) has been ordered. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is seven miles southeast of Yosemite Village, CA in timber. Fire behavior moderated with no major runs. Firefighters successfully contained the west flank of the fire.

FKU = Fresno-Kings Unit

WESTERN GREAT BASIN AREA LARGE FIRES:

WATERFALL, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Scheuerman) is assigned. A Type 1 Incident Management Team (Martin) has been ordered. This fire is 3 miles west of Carson City, NV in timber with litter understory and brush. Extreme fire behavior was observed. Very erratic winds drove the fire in all directions throughout the day. Mandatory evacuations were executed in subdivisions along the west side of Carson City in Kings Canyon, Ash Canyon and Timberline. Voluntary evacuations are in effect in other areas.

ELD = Ely Field Office, Bureau of Land Management

SOUTHWEST AREA LARGE FIRES:

NUTTALL COMPLEX, Coronado National Forest. A Type 2 Incident Management Team (Winchester) is assigned. This complex, located 15 miles southwest of Safford, AZ in brush and heavy timber, consists of the Clark, Nuttall and Gibson fires. Fire behavior was low with backing and short uphill runs observed.

WILLOW, Tonto National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is six miles southwest of Payson, AZ in timber, grass and chaparral. Fire behavior was minimal.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

NORTHWEST AREA LARGE FIRES:

POT PEAK, Okanogan/Wenatchee National Forest. A Type 2 Washington State Interagency Incident Management Team (Johnson) is assigned. This fire is 15 miles northwest of Chelan, WA in timber. Minimal fire behavior was reported. Interior islands continue to burn out.

FREEZEOUT, Okanogan/Wenatchee National Forest. This fire is 65 miles northeast of Bellingham, WA in timber. Minimal fire behavior was observed.

EASTERN GREAT BASIN AREA LARGE FIRES:

TRAIL CANYON, Moab Field Office, Bureau of Land Management. This fire is 40 miles north of Green River, UT in Douglas fir, pinyon pine, juniper and mountain mahogany. Minimal fire behavior was reported due to cloudy conditions and higher relative humidity.

DOLLAR, Boise National Forest. A Type 2 Incident Management Team (Suwyn) has been ordered. This fire is 16 miles northeast of Cascade, ID in heavy dead and down fuels. Extreme fire behavior was observed with crowning and one half mile spotting.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

ROCKY MOUNTAIN AREA LARGE FIRES:

OIL SPRINGS, White River Field Office, Bureau of Land Management. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 27 miles south of Rangely, CO in pinyon pine, juniper, sagebrush and grass. Higher relative humidity and light precipitation moderated fire behavior.

PYRAMID PEAK, Rawlins Field Office, Bureau of Land Management. This fire is 35 miles southwest of Casper, WY in timber. Fire behavior was moderate; torching with short crown runs was observed.

OUTLOOK:

Weather Discussion: High pressure remains over the West. Moisture continues to stream into the southern California mountains and deserts and the intermountain West while a drier southwest flow covers northern California and western Nevada. An upper low off the coast is rotating disturbances across the Pacific Northwest for a chance of thunderstorms along and east of the Cascades. In Alaska, high pressure covers the interior for generally warm and dry weather.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
ALASKA Central and Eastern Interior Partly to mostly cloudy. Isolated thunderstorms or showers in the afternoon.	Central and Eastern Interior: 68 to 86.	Central and Eastern Interior: 20 to 40%.	Central and Eastern Interior: Southwest 10 mph.
SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog coastal areas, otherwise partly cloudy with scattered showers and thunderstorms mainly over the mountains and deserts of Southern California and over the Sierra.	75 to 85 coastal areas. 80 to 95 mountains. 90 to 105 valleys. 95 to 105 upper deserts. 95 to 105 lower deserts.	15 to 30% valleys. 20 to 35% mountains. 15 to 30% deserts.	Southeast to southwest 10 to 20 mph with higher gusts.
SOUTHWEST AREA Partly cloudy. Isolated to widely scattered thunderstorms.	Upper 60s to 80s mountains. 90s lower elevations. 100 to 105 southern Arizona deserts.	15 to 35%.	South to southwest at 5 to 15 mph in Arizona and western New Mexico. South at 10 to 20 mph in eastern New Mexico and west Texas.
NORTHWEST AREA Some lingering thunderstorms likely in the northern Washington Cascades and across the mountains of northeast Washington. Otherwise mostly sunny.	West of Cascades: Generally 70s and 80s. East of Cascades: 85 to 95.	West of Cascades: 40 to 55% north. 25 to 35% interior southwest Oregon. East of Cascades: 15 to 25%. 7 to 14% southeast Oregon.	West winds becoming 5 to 12 mph in the afternoon.
WESTERN GREAT BASIN AREA: Partly sunny across the northwest with breezy afternoon winds. Partly cloudy with isolated to scattered wet thunderstorms across the east and south.	North: 85 to 98. South: 92 to 102. Mountains: 72 to 88.	West Valleys: 5 to 15%. East Valleys: 15 to 25%. Mountains: 15 to 25%.	Northwest: WSW at 10 to 20 mph, localized gusts 25 to 30 mph. Elsewhere: SSW at 5 to 15 mph.
NORTHERN CALIFORNIA AREA Mostly clear except for night and morning coastal low clouds and fog.	90s to 102 warmer inland valleys. 60s to lower 70s coast.	8 to 18% driest inland areas.	Afternoon winds south to west southwest at 5 to 13 mph. In north and eastern areas and in higher exposed terrain, gusts 20 to 25 mph.
NORTHERN ROCKIES AREA Partly cloudy with a chance of thunderstorms across southern portions of the Area.	Middle and upper 90s at low elevations. Upper 80s higher terrain.	17 to 30 %.	Easterly winds at 5 to 15 mph.
